

Sample Super Store Analysis

Key Insights

1. Overall Business Performance

The company achieved **Total Sales of ₹2,296,195.59**, generating a **Total Profit of ₹286,241.42** from **37,820 units sold**. The overall **Profit Margin is 12.47%**, indicating that the business earns approximately **₹12.47 in profit for every ₹100 of sales**.

2. Regional Sales Performance

The **West** region generated the **highest sales (₹725,256)**, making it the best-performing region. The **East** region ranked second with **₹678,435** in sales. The **South** region recorded the **lowest sales (₹391,722)**, highlighting an opportunity to increase market presence in that region.

3. Category-wise Sales

Technology generated the **highest sales (₹836,154)**.
Furniture contributed approximately **₹741,306** in sales.
Office Supplies recorded approximately **₹718,735** in sales.

Although Technology led in sales, the difference between Furniture and Office Supplies is relatively small, indicating balanced demand across categories.

4. Category-wise Profit

Technology is the **most profitable category**, contributing approximately **₹145,545** in profit.
Office Supplies generated approximately **₹122,365** in profit.
Furniture earned only **₹18,422** in profit, despite generating substantial sales, indicating significantly lower profitability.

5. Top Performing Products

The top five products by sales are:

Phones – ₹330,007
Chairs – ₹327,778
Storage – ₹223,844
Tables – ₹206,966
Binders – ₹203,409

These products are the primary contributors to overall revenue.

6. Low Performing Products

Among the Top 10 products, **Bookcases** and **Appliances** generated the lowest sales, suggesting comparatively lower customer demand.

7. Business Observation

Although **Furniture** contributes significantly to total sales, it generates much lower profit than the other categories. This may indicate higher discounts, higher operational costs, or lower margins within this category.

Business Recommendations

1. Continue investing in the **Technology** category, as it delivers both the highest sales and the highest profit.
2. Review pricing and discount strategies for **Furniture** to improve profitability.
3. Increase marketing efforts in the **South** region to boost sales.
4. Maintain adequate inventory for **Phones** and **Chairs**, as they are the top revenue-generating products.
5. Analyze the performance of **Bookcases** and **Appliances** to identify opportunities for improving sales or optimizing inventory.

Conclusion

The analysis indicates that the business is performing well, with over **₹2.29 million in total sales** and a **12.47% profit margin**. The **West region** is the strongest sales contributor, while **Technology** is the leading category in both sales and profit. **Phones** and **Chairs** are the top-selling products, making them key revenue drivers. Improving the profitability of the Furniture category and strengthening sales in the South region can further enhance overall business performance.
